

REVOLVER

HIGH QUALITY AUDIO

Replay Turntable

Features

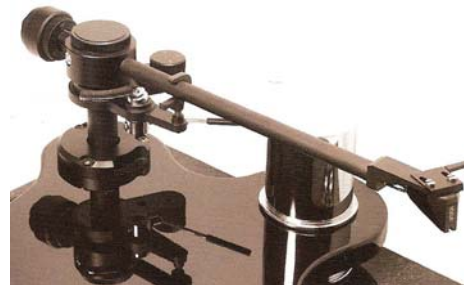

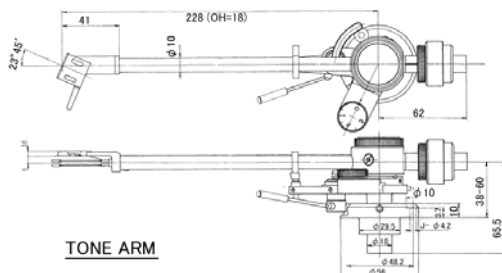

This new Revolver turntable uses the same superb acoustic principles as its famous forebear the Revolver Rebel, but with the added benefit of new technology, new materials and modern esoteric styling. The split plinth concept is simplicity itself isolating various critical parts of the turntable whilst solidly connecting others.

Specifications

Plinth	Split Design, isolating critical parts of machine
Plinth material	Polished marble
Speed rating	33 1/3, 45 rpm, controlled electronically, tolerance +/- 1%
Drive	Flat section peripheral belt
Platter	38mm thick polyester resin
Main bearing	Single point with typical running clearance of

	0.0004" at 17 deg C 0.06% IEC Weight
Wow and Flutter	
Input Voltage	AC 12v 600mA
Power Supply	External AC 240v / 110v to 12v
Power Consumption	8 watts
Weight	23 Kg
Dimensions	440 mm x 360 mm x 155 mm (w x d x h)
Finish	Gloss black marble plinth, piano gloss black sub-plinth, chrome posts and feet

Tone Arm	SA-250 ST
Type	Static balance straight pipe type
Bearing mechanism	One point cross suspension system
Effective Length	228 mm
Overhang	18 mm
Tracking Error Angle	+2 degree / - 1 degree
Vertical Tracking Force	0.5 – 3 grams
Suitable cartridge weight	4 – 10 grams

Reviews

VERDICT

A welcome return to the vinyl market, the Revolver Replay is a stylish and well built deck, with excellent bass and a lovely flowing nature.

“... the most noticeable aspect of the Revolver is its bass. It has a low end that not only goes low, but is tight, well controlled and rhythmical.”

“... offers a beautifully weighted upper midrange and treble that flow together in an almost sinuous fashion...” Adam Smith
